was conducted by Vivrett, Smythe

McConneil owing entirely to the fact
that the county attorney neglected to read the indictment to the jury in the inception of the trial.

It turns out that the death of Miss Ida Tompkins, of which I wrote the GAZETTE last week was the result of her own deliberate purpose. She had a frivolous quarrel with a brother two years older these with a brother two years older than herself the morning of the suicide, which so preyed upon her mind as to result in her taking the deadly strychnine. IMPORTANT AND TRUE.—Impure blood causes diseases and decay no matter what part seems to be the seat

PLAIN TRUTHS

The blood is the foundation of life, it circulates through every part of the body, and unless it is pure and rich, good health is impossible. If disease has entered the system the only sure and quick way to drive it out is to purify and enrich the blood.

These simple facts are well known, and the highest medical authorities agree that nothing but iron will restore the blood to its natural condition; and also that all the iron preparations hitherto made blacken the teeth, cause head-

ache, and are otherwise injurious Brown's Igon BUTTERS will ther-oughly and quickly assimilate with the blood, purifying and strengthen-ing it, and thus drive disease from any part of the system, and it will not blacken the teeth, cause headache or constipation, and is positively not injurious.

Gents:—Upon the recommendation of a friend I tried Brown's linon Birrinia as a tonic and restorative for my daughter, whom I was thoroughly convinced was wasting away with Consumption. Having lost three daughters by the terrible disease, under the care of eminent physicians, I was loth to believe that anything could arrest the progress of the disease, but, to my great surprise, before my daughter had taken one bordle of Brown's Ison Birrings, shu began to mend and now is quite restored to former health. A fifth daughter began to show signs of Consumption, and when the physician was consulted he quickly said "Tonies were required;" and when informed that the elder sister was taking Brown's Ison Birrings, responded "that is a good tonic, take it."
